

**AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (original) A method of cooling a material, said method comprising compressing 1,1,1,3,3-pentafluorobutane as refrigerant in a turbocompressor, and allowing the compressed 1,1,1,3,3-pentafluorobutane to expand in heat exchange relation with the material to be cooled.

2. (original) A method of converting a cooling system including a turbocompressor which uses R11 or R123 as a refrigerant, said method comprising replacing the R11 or R123 with 1,1,1,3,3-pentafluorobutane and increasing the rotational speed of the turbocompressor.

3. (original) A method according to claim 2, wherein the rotational speed is increased by about 4%.

4. (currently amended) In a cooling system comprising a turbocompressor which compresses a refrigerant, the improvement comprising said refrigerant consisting essentially of comprising 1,1,1,3,3-pentafluorobutane.

5. (currently amended) A cooling system comprising a turbocompressor which compresses a refrigerant, according to claim 3, wherein said turbocompressor is designed to operate with R11 or R123 as refrigerant, and wherein said refrigerant consists of 1,1,1,3,3-pentafluorobutane.
